

Bookmarks

Documentation needs updating

We are currently updating documentation to reflect recent UI changes across Centrix. This documentation is out of date.

Centrix allows bookmarks to be created to provide a mechanism for logging an incident of any nature. This allows the incident to be quickly re-visited at any time in addition to creating a permanent log of the incident.

Guides

Creating a Bookmark

The screenshot shows the Centrix web interface. The main content area displays a table of bookmarks. The 'Edit Bookmark' dialog box is open, showing the following details:

Actions	Name	Site	Date/Time
	0501TC SCWO040712SH	Finsbury Park	04/07/2012 13:20:00.100+0000
